Forecast for Friday 23 Dec 2022

Weather: Mainly dry with clear spells and patchy fog overnight. A dry start but rain will soon spread north through the morning, turning heavy at times. This will fall as snow above 800m in the morning before turning to rain at all levels. The rain will become light then clear away north in the evening.

Chance of cloud-free hill tops above 700m: 40% early morning but soon becoming less than 10%.

Low cloud and visibility: Mainly good visibility at first but some patchy low cloud and fog about. Visibility deteriorating in the morning with cloud and fog becoming extensive above 400m with patches on lower slopes.
